Re: Appeal of claim denial
Claim number: NW-2026-0048817
Patient: Jordan Avery Test Member ID: NWH-770412-09
Date of service: 2026-08-19
Service: CPT 72148 - MRI lumbar spine without contrast
Billed amount: \$1,840.00
Denial: CO-50 Service not deemed medically necessary based on submitted documentation.

To the Appeals Reviewer,

On behalf of Lakeside Orthopaedic Group:

We request reconsideration because the service was medically necessary for this patient. The patient had eight weeks of low back pain with left leg radiculopathy and reduced ankle reflex, despite physical therapy and anti-inflammatory medication. (Synthetic example text.) The enclosed records address each criterion in the cited payer policy. Where the denial rests on medical necessity, we also request a peer-to-peer discussion before a final decision.

Enclosures:

1. Physician letter of medical necessity
2. Clinical notes covering the date of service
3. Records of prior conservative treatment
4. Ordering-provider rationale and orders
5. Payer medical-policy criteria the record satisfies

Sincerely,
Sana Ahmed, CPC (synthetic example)
